

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: John Welzenbach
DOCKET NO.: 04-23268.001-R-1
PARCEL NO.: 03-30-423-020-0000

The parties of record before the Property Tax Appeal Board are John Welzenbach, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 75-year old, two-story frame dwelling containing 2,196 square feet of living area with a full, finished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing three suggested comparable properties. On the appellant's map, the comparables are located approximately one mile from the subject. The comparables are two-story frame dwellings that are 93 to 99 years old. Each comparable has an unfinished basement, and one comparable has central air conditioning. The dwellings have living areas that contain 1,988 to 2,141 square feet, and their improvement assessments range from \$10.29 to \$10.97 per square foot. The subject property has an improvement assessment of \$13.06 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties. One of the comparables is located in the same tax block as the subject, and the other two are located in close proximity of the subject. The comparables

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	10,501
IMPR.:	\$	28,679
TOTAL:	\$	39,180

Subject only to the State multiplier as applicable.

are two-story frame dwellings that are 79 or 86 years old. Each comparable has a full, unfinished basement and a garage, either one-car or two-car. The dwellings have living areas that contain 1,512 to 1,632 square feet, and improvement assessments that range from \$15.80 to \$15.84 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of six equity comparables. The appellant's comparables differed substantially from the subject in location, and age. The board of review's comparables differed significantly in size from the subject. As a result, none of the comparables was truly similar to the subject property to provide clear and convincing evidence that the property was inequitably assessed. However, the Board notes that all comparables had improvement assessments ranging from \$10.29 to \$15.84 per square foot. The subject's \$13.06 per square foot improvement assessment is within that range and appears to be supported after considering differences in physical and location attributes.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
